Nik Tomazic
Full Stack Developer / Technical Author

🌐 duplxey.com   in nik-tomazic   ○ duplxey   ✉ info@duplxey.com

I'm a full stack developer and technical author specializing in building scalable web and mobile applications. With over eight years of experience, I've honed my skills in writing clean, quality code. I believe in shipping fast, while making things as perfect as possible. I am also proficient in DevOps, graphic design, and system design.

Skillset

Languages:	Python, Java, JavaScript, TypeScript, Kotlin, PHP
Frameworks:	Django, React, Next.js, Flask, FastAPI, TailwindCSS
Databases:	PostgreSQL, Redis, MySQL, MongoDB, MariaDB
DevOps:	Linux, AWS, Docker, GitHub Actions
Other:	Git, HTML5, CSS3

Work Experience

Technical Author @ TestDriven Labs – Freelance

Technical blog posts about Python, code quality, Django & Flask, deployment options (including IaaS, PaaS).

(February 2021 – now)

Technical Author @ Back4app – Freelance

Technical blog posts about IaaS, PaaS and BaaS solutions, serverless computing, containerization technology.

(October 2022 – now)

Projects

CoinRender

A web tool that allows you to create stunning 3D crypto coin marketing assets from your logos. Cut production costs and delivery time by up to 75%. Supporting PNG and SVG logos.
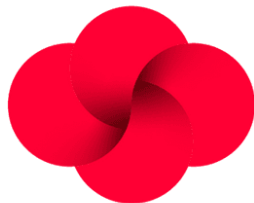

GreenButton

A mobile app that allows you to learn about environmental problems and green solutions by performing simple green tasks and competing with friends and strangers.

MusicBuddy

A web app which allows you to see your Spotify statistics & find friends who have similar music taste. Find your MusicBuddies today for free!

VideoLectures

A mobile application for VideoLectures.NET which is the world's biggest academic online video repository with 24,792 video lectures delivered by 10,763 presenters since 2001.
